This is in addition to the \$150 annual *NASC Learning Center* subscription.

Videos included in the *CSEE Online Module "Personal Self Motivation: Discovering Your Best Every Day"*, listed above, are available to view at your own pace. After each video, participants are required to complete a short quiz and score at least 75%. Once all videos have been viewed and quizzes successfully completed, participants will be provided with an electronic *Certificate of Completion*. Once the certificate and payment is received by the NASC, one (1) credit will be applied.

The CSEE Online Modules are a great addition. The videos are short, sweet and I have found them to be very convenient especially when I need a quick break or transition in my day while still staying on focused on my job.

I appreciated the convenience of earning a CSEE credit without having to leave my office. And, the format of the videos were spot on for how our industry operates - to the point and extremely relevant.
