The NASC Board of Directors plays an active role in governing the operation of the association. Board members meet monthly via conference call in conjunction with the staff to approve budget reports, receive updates from review committees, offer guidance on member service issues and, in general, provide staff with general comments and suggestions about the association's activities. The board meets in person twice a year at the NASC Sports Event Symposium and the NASC Semi-Annual Meeting.

The NASC is a 300+-member organization whose mission is to provide a communication network among and between sports commissions, Convention and Visitors Bureau's and event rights holders which increases access to sports event information, educates members in the areas of sports marketing and fund raising, enriches the quality of member's sports events and promotes the value of sports commissions in their own community and within the sports industry.
